I have been an intuitive since childhood. My Grandmother in Spirit was always there for me. From seeing Spirit, hearing Spirit, talking to Spirit and even getting tapped on the shoulder by Spirit. I've always known they were there.

After helping my sister find peace during her transition and crossing over, I decided to come out of the mediumship closet, spread my wings and use my abilities for the good of others with hope, healing, compassion, and counseling.

Angel Channel / Communicator/ Spiritual Counseling

Often called the "Dr. Seuss" of channeling. I have the rare gift of being able to channel a group of Angels through which they will give you messages to help with decision making, healing, closure, validation and guidance and counseling. Spoken or written, the channels come in the form of rhyming prose. Be prepared to be amazed and possibly shed a tear or two.

It is life affirming, sacred and inspiring

Spirit Medium

Mediumship is the process of raising the vibrational frequency to match with those that have crossed over and connecting to them in Spirit. Communicating with loved ones provides an opportunity for reconnection and affirms their presence in our lives. My mediumship readings can provide grief release, healing, closure and validation from loved ones on the other side that they are knowledgeable of our every day, are at peace and sending love.

Animal Intuitive / Communication

I sense, hear and "just know" what the animal in your life needs. I connect to those crossed over too. I am honored to be the official animal intuitive for The Animal Sanctuary in Cocoa, FL. A photo of your beloved animal(s) will work as I connect with the energy through the photo.

Psychic Guidance

I sense, see and feel things going on with you, your life, loved ones and events surrounding you.
Intuitive guidance sessions available
